Fundraising Training - Basic

SAGE FUNDRAISING 50

What is covered?

The Basic Training three-day class will give attendees a comprehensive overview of the topics mentioned to the right. Participants will learn the most efficient ways to record and track information about your constituents, learn how to record all donations (including gifts, pledges, pledge payments, soft credits, in-kind items, honor/memory gifts, and matching gifts), learn how to plan, organize, and manage all aspects of single activity and multiple activity events, learn the simple steps involved in mail merges and global emails, learn how to create customized reports and exports, and so much more. Our instructors use a “learn and apply” hands-on approach, along with a detailed manual, to ensure each student fully understands each topic.

Learn about topics such as:

- **Constituent Entry and Management**
- **Gift Entry**
- **Events and Volunteer Management**
- **Mass Mailings**
- **Query and Reporting**

* No prerequisites or advanced preparation is required.

Who should attend?

The class is a must for development directors, customer relationship managers, marketing managers, volunteer coordinators, events coordinators, grants managers, campaign managers, or anyone who works with Sage Fundraising 50 software. *In order for students to get the most out of the class, we recommend that all participants be proficient in the use and knowledge of the Windows operating system.*

Ziegner Technologies, Inc. has offered training on Sage MIP accounting software products for years. Each of our instructors is a Sage Software Certified Trainer. Sage Software recognized Ziegner Technologies recently at its 2006 Annual Sage Software Partner Conference as a repeat President’s Circle business partner and the #1 MIP Certified Classroom Training services provider in its Nonprofit Solutions division.
